HOW IT WORKS

01

INGEST

Connects to your ERP, contracts, and invoices in hours — no complex integration required.

02

RECONCILE

AI matches every line item against contracted rates, PO terms, and GL entries.

03

ANALYSE

10 AI detectors surface overbillings, duplicates, and contract gaps in real time.

04

ACT

A prioritised recovery plan with quantified savings, delivered to your team the same day.

WHAT EVOXEDGE FINDS

Savings Opportunities

- Overbilling vs contracted rates
- Duplicate invoices
- Missed rebates & credits
- Volume discount gaps

Billing Issues

- Incorrect tax classifications
- Freight overcharges
- Currency conversion errors
- PO vs invoice price discrepancies

Data Integrity

- Duplicate vendor records
- GL coding errors
- Unapproved spend
- Exposure from expired contracts

Risk Flags

- Maverick spend patterns
- Single-source dependency
- Payment term violations
- Compliance anomalies

WHY EVOXEDGE

1

Contract-Native AI

Reads your actual contracts — not benchmarks. Every finding is tied to a specific clause.

2

Three-Way Reconciliation

Matches contract terms, invoice lines, and GL entries simultaneously — eliminating gaps.

3

Secure Deployment

Deploy in your environment. Your data never leaves your perimeter — SOC 2 ready.

4

Action-Ready Output

Clear, prioritised findings with quantified impact — not just dashboards to interpret.
